

Doctormusic Project TECHNICAL FORM

Biography:

The origins of the Doctormusic project lay in an ordinary record shop that after more than 10 years of activity decided to focus its attention to a new group of musicians - very close friends first of all - who had a really good chemistry during the composing phase as well as in the registration studio. Doctormusic project is Simone Barbaresi & Andrea Soricetti (a.k.a. Doctor Music). Two very close friends who had a really good chemistry during the composing phase and in the recording studio. They both come from two different schools and their music is now a crossover between funk and electronic music. Simone Barbaresi dj' d in many popular Italian clubs such as Cocoric ò , Echoes, Peter Pan, Pasci ò , Magazzini Generali with djs like Little Louie Vega, Frankie Knuckles, Dimitri From Paris, Joey Negro, Fatboy Slim, Terry Hunter, Richard Dorfmeister, Howie B, Barbara Tucker, Claudio Coccoluto, Ralf and many more; Andrea Soricetti played in a band and he had a passion for composing music. He's djing around clubs and strong private parties. They are both great fans of vinyl records and are constantly looking to capture the right sampler or beat to produce the right music. Doctormusic Project is currently producing for two labels: Timewarp Music and Kraak Records, also involved in producing music for fashion shows and advertising television for known Italian brands such as Cesare Paciotti, Brosway, Combo, Fabi, Pinko, Malloni and many more.
